GLOSSARY

- "base miles" Riding aerobically. Mileage for "base" rides is typically higher, but the intensity is lower. You should be able to speak in complete sentences and paragraphs; if not, you're breathing too hard - slow down. Base miles are often underrated, but they provide an essential foundation in training for the "Ride to Cure."
- "tempo" More intense than base miles (and therefore of shorter duration). A ride at "tempo" should be involve exertion such that you might speak in a complete sentence, but not complete paragraphs. It's not racing speed, but should be "in a hurry."
- "intervals" A shorter ride of concentrated hard work punctuated by repetitions of harder work. A separate flyer is provided on this site on how to build interval training sessions.
